

# Ad Blocker for Yandex Browser

Adblock Plus is the most advanced adblocker for Yandex Browser. Are you fed up with advertisers infringing on your browsing experience? Simply install the extension and all annoying ads will be automatically blocked from the internet. Blinking banners, popups, video commercials on YouTube, Facebook and Vkontakte ads: The Yandex Browser Adblock Plus extension will automatically remove any unwanted ad from every website you visit. Want more? You can easily activate additional privacy and security [features](#) such as tracking and malware protection.

Installing the Yandex Browser Adblock Plus add-on to your browser only takes a few seconds. Simply click the "Install for Yandex Browser" button above and confirm the installation by clicking the "Add" button. Please note: Yandex Browser displays a warning that Adblock Plus can access the data on any website you visit. This is a standard warning for Yandex Browser extensions running on every tab. We promise to never collect any data about you.

The add-on is developed by the open source community and free to use for everybody. With more than 50 million users, it is one of the most popular extensions ever.
